

Creative Care

How our chaplains continue to provide exceptional care.

A chaplain created a sign to express love, joy and prayer. The residents eyes lit up when they saw her and the word spread quickly!

A chaplain brought her dog and son to greet residents through the windows. The residents loved meeting them!

PRAYER COVERAGE DURING RESTRICTED ACCESS

Marshalltown, Iowa: Nobody told the chaplain to go to a company parking lot and begin praying for the employees inside. The company owner was so impressed. He took this photo and sent it to us. That is what our chaplains are doing these days. **They love the employees we serve. They are thinking of every way possible to show love and care.** And then they do it. While a *Stay-at-Home* order has restrictions, it cannot keep chaplains like this from doing what God is calling them to do.

8 BEST PRACTICES FOR VIRTUAL CARE

24/7: ACCESS TO YOUR CHAPLAIN CARE TEAM THROUGH THE MYCHAP APP!

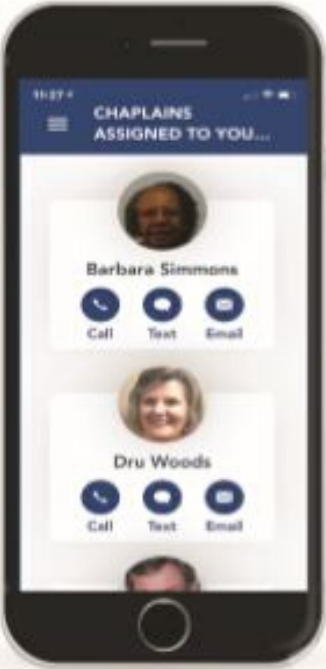

MyChap App is a smartphone app that enables employees of companies served by Senior Living Chaplains to have immediate and easy access to their assigned Chaplain Care Team. Users simply download the app for free from the app store, enter their Company ID # (provided by their company HR department), and will gain access to interface with their chaplains via phone, text, email or personalized request for an appointment or resources through the “Connect” form. Online, topical resources are also available through MyChap for users to browse.

LOGIN

Each company location has a distinct number. The company ID will be there the next time you open MyChap App but can be over-keyed with different ID#.

CONNECT

The current list of chaplains will be displayed along with contact information for each chaplain assigned there. The employee will select his or her chaplain to call, text, or email.

ACCESS RESOURCES

The Connect Care Newsletter, as well as additional online, topical resources are available through MyChap for users to browse.

Available **FREE** in the App Store
